

Nomad Tokyo (Chinese Edition)

In Japan, Nomad refers to the workers who don't work in offices and can freely choose the workplace. As the social and economic structure changes, the life-time employment system of Japanese enterprises collapses, and more and more people cannot get a stable work and life. The convenient public facilities and more and more serious traffic problems in metropolis urge the young people to explore the mobile working and life styles. The Global Nomad era is coming! Are you still working in the office? Please read Nomad Tokyo written by Tomohiko Yoneda.
