

Little Men (Signet Classics)

At Plumfield, an experimental school for boys, the little scholars can do very much as they please, even slide down banisters. For this is what writer Jo Bhaer, once Jo March of Little Women, always wanted: a house swarming with boys in all stages of effervescence. At the end of Little Women, Jo inherited the Plumfield estate from her diamond-in-the-rough Aunt March. Now she and her husband, Professor Bhaer, provide their irrepressible charges with a very different sort of education and much love. In fact, Jo confesses, she hardly knows which I like best, writing or boys. Here is the story of the ragged orphan Nat, spoiled Stuffie, wild Dan, and all the other lively inhabitants of Plumfield, whose adventures have captivated generations of readers.
