

The Brown Hand, The Original Short Story: (Arthur Conan Doyle Masterpiece Collection)

Every one knows that Sir Dominick Holden, the famous Indian surgeon, made me his heir, and that his death changed me in an hour from a hard-working and impecunious medical man to a well-to-do landed proprietor. Many know also that there were at least five people between the inheritance and me, and that Sir Dominicks selection appeared to be altogether arbitrary and whimsical. I can assure them, however, that they are quite mistaken, and that, although I only knew Sir Dominick in the closing years of his life, there were none the less very real reasons why he should show his goodwill towards me. As a matter of fact, though I say it myself, no man ever did more for another than I did for my Indian uncle. I cannot expect the story to be believed, but it is so singular that I should feel that it was a breach of duty if I did not put it upon record--so here it is, and your belief or incredulity is your own affair.
